1. There are no changes of duties and/or area of operation involved in the individuals listed in reference dispatch. All individuals are still contemplated to be used as JERADILE operators in support of the LCPROBIL-Apparat. We merely assigned JS numbers to these individuals in order to simplify, not confuse the various records (agent, security, training, etc.). For the same reason, we asked assignment of JS numbers of all prospective candidates, whether they are to be employed under the LCPROBIL-Apparat, IMPERIAL, EXHIBITION, HYDROGEN, or any other project. We have been advised that for keeping the records straight it would simplify matters if the candidates, were all listed under JS numbers, since, of course, they will all have to go through some sort of JERADILE training. With this request we complied.

2. In the case of JB-33, I regret a mistake must have been made, for he was from the beginning contemplated for use in a JERADILE capacity. He is presently beginning JERADILE training.
